BILIOUSNESS

"I unhesitatingly add my testimony to the great benefits to be derived from Simmons Liver Regulator. I was afflicted for several years with disordered Liver, which resulted in a severe attack of Jaundice. I had good medical attendance, but it failed to restore me to the enjoyment of my former health. I then tried the most renowned physicians of Louisville, Ky., but all to no purpose, whereupon I was induced to try Simmons Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health."—A. H. Interesting Cure of Insanity.

An interesting instance of fighting insanity with insanity has recently been noticed among the Blackwell's Island patients. Two lunatics had been received who were disposed to commit suicide. In addition each possessed a special delusion, one to the effect that he was a cow, the other that his head was an iron ball and was to be rolled along the floor. They carried these beliefs into action, one striking his head against the padded walls of his cell, the other rolling his head, and of course his body with it, along the floor. The two patients were placed together, and each was privately informed of the other's weakness and warned to watch his companion to prevent him taking his own life. Thus each had charge of the other. Their vigilance was unceasing. Each supposed himself to be perfectly sane, and this belief was accompanied by considerable scorn for the other's weakness of intellect and accompanying delusions. Gradually under the influence of this treatment the patients were observed to improve. To have their attention centered on definite duty and on objects external to themselves proved a tonic to their diseased minds, and gradually a complete cure was effected, and they received their discharges from the asylum.—[Scientific American.

Things Worth Knowing.

Egg plums, 100 lbs fresh fruit, 6 to the lb, loss in pitting 4 lbs, loss in drying 77 lbs, total loss 81 lbs, net result 19 lbs dried fruit.

Columbia plums, 100 lbs, 6 to the lb, loss in pits 6 lbs, loss in drying 65½ lbs, total loss 71½ lbs. net result 28½ lbs.

Washington plum, 100 lbs, 11 to the lb, loss in pits 6 lbs, loss in drying 73½ lbs, total loss 80½ lbs, net result 19½ lbs.

Bradshaw plums, 6 to the lb, loss in pits 8 lbs, loss in drying 77 lbs, total loss 85 lbs, net result 15 lbs.

Bulgarian prune, 10 lbs, 14 to the lb, dried whole, loss in drying 6½ lbs, which would give 65 lbs loss to the 100 of green fruit and giving a net result of 35 lbs of dried fruit.

Victoria prune, 3½ lbs, 8 to the lb, loss in pitting ¼ of a lb, which would equal about 21 lbs of dried fruit; the same fruit dried whole, 3¾ lbs yielded 1½ lbs of dried, equaling 33⅓ lbs of dried fruit to the 100 lbs of green fruit.

Apricots, 100 lbs, 9 to the lb, loss in pitting 8 lbs, loss in drying 70 lbs, net result 22 lbs.

Virginia Characters.

The father of General E——, of Virginia, had a body-servant who was an inveterate toper. His master tried every means in his power to break him of drinking. Persuasion was useless, advice wasted, and whipping but temporary in effect.

Sam had been to a dance, had imbibed freely, and returned home at break of day, and at breakfast was rather the worse for wear. His master thought to try the effect of frightening him by apparently reading from the morning paper the death of a drunkard in R——.

"Spontaneous combustion! Horrible death of a drunkard! Last night Michael McGinnis was in a beastly state of intoxication; he retired to his room, and in blowing out the candle his breath caught fire. He was entirely consumed, and nothing left of him but the ashes in his shoes."

Sam stood with his eyes agog and hands raised. "'Fore Gord, 'fore Gord, Marse John, dis nigger neber blow out a candle ez long ez he lib, shuah!"

The majority of mankind in unwilling to have other than a large "I" in any undertaking which is successful, and more than willing to share failure with an equally large "We."

Colonel H——, of Virginia, had some negroes quarrying rock, with old Uncle Ned as foreman. One morning the Colonel rode over to the quarry, and after the usual good morning said, "Well, Ned, how are we getting along?"

"Dar 'tis ag'in. Wel—how's we gittin' erlong? Marse Chawles, I's er-quarryin' dis here rock. You 'minds me uv er passel er coons ez went er huntin' deer in de swamp. Long Sam—you 'members him—Marse Torm's Sam?— well, Sam he wuz boss er de batch, an' arfter dey done sot up deir pine-knot torches, an' wuz waitng in de brush, Sam he spied sumpin' er-moviu', an he up wid's gun an' bimb! sumpin' drapped, an' one ob de boys wez, "Ump? ain't we lucky? dar's one a'ready: we's got one shuah." An' Sam he tu'ned round, he did, an' sez. sez he, "Not so much we, ef yer please—I kilt dat ar deer." An' dey all went ter holp skin it, an' lo an' behold! it war Marse Torm's pet colt, out er de gray mar' what he fotch from Richmun, an' Sam he looked kinder skeert, he did, an' sez, sez he, "Boys, ain't we jes playe h—!" An' ebry one uv em answered, "Not so much we, ef yer please, you done killed dat colt. An', Marse Chawles, I's er-quarrin' dis here rock, and we's gittin' erlong only middlin'."—Harper's Weekly.

BROTHER GARDNER.

The President of the Limekiln Club Preaches a Philosophical Sermon.

When I h'ar an individual riz up an' declar' his disgust wid de world I sot him down as a pusson who has contributed his f'ar share to'rds bringin' de world to its present condishun.

Dar' am sartin people who war' bo'n into dis life fur no pertickler reason. Dey am as outer place as a blind hoss befo' a lookin'-glass. Dey havn't de smartness to steal nor de spirit to work. Dey am too cowardly to suicide, an' not brave 'nuff to face de problems of life. Dey am mean 'nuff to covet, but not reckless 'nuff to steal. Dey begin on Sunday mawnin' to predict short crops, an' wind up Saturday night by a prophecy of airthquakes or cholera. In de front doah of ebery sich man should be nailed a sign readin': "It am better to pass on to de next so'ner an' take de small-pox instead."

I sit down wid my pipe of an eavenin an' boil sartin-matters down an' frow away de skimmins. I'ze been gainin' two or three pounds of flesh a y'ar fur de las' ten y'ars. What rich man has done better? I'ze got a tight roof ober head an' a good cellar below. Jay Gould's roof may be higher an' his cellar bigger, but why should I envy him when I have room 'nuff?

On my table am co'n beef, 'taters, cabbage, bread an' odder fings which please my taste, satisfy my hunger an' put fat on my ribs. Does any millionarie do mo' dan eat to please hisself?

De panes in my windows am small but clear. I kin look out to de east, no'th, south or west. De Vanderbilts can't do any better. Deir glass may be larger an' cost mo' money, but it doan' keep out mo' weather.

I'ze got a bit of a garden in which I'ze growin' 'taters, lettuce, onions, beets an' de like. De Queen of England kin have a bigger garden, but her vegetables must grow in de same way, an' would taste no better.

I'ze got plenty of fuel fur cold weather an' fly screens to keep out de dust an' flies in summer. De King's palace am warmed by de same coal an' his screens made frum de same wire. I want neither his heat nor his 'skeeters.

I'ze got good health an' a purty fa'r job. Dar am plenty of millionaires who haven't got no health 'tall, and whose worry am mo' tiresome dan my labor.

I'ze got a lot all paid fur in de graveyard. Some men may have two, but I doan' envy 'em. By an' by me'n de ole woman will be laid away up dar. By an' by de rich man an' his wife will also be laid away. Dey may have a monument towerin' above our tombstuns, but dey'll sleep no sweeter nor awaken any sooner. Deir collins may be richer, but de same airth will bring all to decay.

De great trouble wid aiverage humanity, as I see it, am de fack dat people grasp fur too much. What was riches to de las' ginerashun am jist nuff to make dis one discontented. What was comfort den am poverty now. De wages of our gran'fathers would hardly buy ap'ons fur de wives of workin'men to-day. We am full of froth an' show. Hypocricy an' deceit am part of our stock in trade. Envy an' jealousy am drivin' out charity an' contentment. Fifty y'ars hence, if dey should dig down to my coffin an' find dat I had turned ober, de papers needn't make any sensashun. It am juite sartin, onless a great change takes place, dat de nex' generashun will make us ole dead folks tired."—*Detroit Free Press.*

ARTIFICIAL NOSES.

The Abnormal Proboscis Which Belonged to a French Senator.

Artificial noses are generally attached to the face by spectacles. About five years ago a San Francisco dentist made for a Chinese woman, whose face was horribly disfigured, a celluloid nose. The organ was attached by a gold spring to the upper jaw, in the manner in which single teeth are affixed. The spring ran up to where the bridge of the nose should have been, and to this spring the artificial nose and lip were attached by an india-rubber loop. The combined pressure of the spring and india-rubber drew the celluloid mask so close to the face that, being molded to fit the cheeks, it would have looked quite natural but for the lack of that transparency which living tissue possesses. Of course, our funny paragrapher had to have his say after this bit of news appeared. He at once boldly stated that a man out West had a cork nose. "When he keeps sober," said the writer, "it gives him no trouble; but when he is out drinking with friends they want to borrow it for a stopper every time they lose their corks out of their flasks."

There is a true story of a French Senator, a very handsome man, who had a large nose of which he was somewhat proud. He was once riding in a train, when a child, who was in the same carriage, and who had watched the statesman for some time with dilated eyes, began to cry as if its heart would break. The mother could not console it. The little one was afraid of the Senator's big nose, and the mother quietly explained that her child had just come from the masquerade, where he had been particularly excited by the display of large noses. She concluded by requesting the statesman to take off his nose, "for you, I see," she explained, "for some good reason best known to yourself are prolonging the carnival." The Senator protested that he could not accommodate her, assuring the lady that his proboscis was not a false one, but his own. "Touch it," said he. The lady gave a pull at the Senator's nose, but it did not come off in her hand. "A thousand pardons," she said, "but pray—oh, pray, hide it with your hat!" The distinguished statesman complied with this singular request, continued his journey with his nose in his hat, and the child's screams subsided.—*Brooklyn Magazine.*

A JAPANESE TROUPE.

A MANAGER RELATES HIS EXPERIENCE WITH THE MEMBERS.

Learning the Japanese Language—Japs Fond of the Bath—Taking a Liking to Lager Beer—Saying Prayers—Street Performance in Japan.

"It was the first troupe of Japanese that had ever played throughout the United States and Canada, and was a big novelty. It was made up of eighteen Japs—eleven men, three women and four children. They could not talk a word of English, and as I had to live right with them I was obliged to pick up their language as best I could. I did it through pantomime, picking up an object or doing a thing and then getting the proper words for them from the Japs. I had a little indexed book, and used to put the words and expressions that I learned in it, writing them as they sounded to me, with the definition. In a few months after I joined them I was quite a Jap myself. The language is easily learned, and resembles Spanish very much. I dressed like the Japs, and allowed my hair to grow long. Here's an old photograph of me as I appeared with little Kotzko in my kimona. I looked like the real article, didn't I?"

"What's the kimona?"

"It's the loose, flowing robe that the Japs wear, folding it across the breast. In summer it is a light garment, and in winter it is heavily padded and very warm. Some of these kimonas are beautifully embroidered. Under this kimona they wear the baggy pants or mamushka, fastened at the waist by a belt, called the 'obe.'

IN A "CHEAP JOHN" SUIT.

"But the Japs soon wanted American clothes, and they got them, too. Toyokichi, one of the party, went out on his own hook one day, and came back with a very queer hand-me-down suit on, over a thin undershirt, and his pants tucked in a pair of very stogy cowhide boots. Oh, but he looked funny when he walked into the hotel in this rig. The 'Cheap John' clothier had taken advantage of him and charged him four prices, so that I had to go around and get part of the money back.

"The Japanese are the most cleanly people that I have ever seen," proceeded Mr. Hildreth. "I had to be careful to secure bath rooms at every hotel we visited, and if there were no bath rooms I was expected to 'make rates' with some bath house in the town. Why, on the sleeping cars they were up at daylight scrubbing themselves all over, and as soon as they reached the hotel they were at it again. They use on their hair a peculiar pomade that glistens and shines on their jetty locks. The women use more of this than the men. Occasionally the men use a great deal of it, though, in combing their hair up to a stiff knot on the tops of their heads. They all insisted upon two baths per week regularly, besides their sponge baths daily, and they used to have the water so hot that neither you nor I could stand it. Almost the first English they picked up was the expression 'Gimme wasser,' which they used on going into every hotel."

"Did your Japs tackle kindly to American intoxicants?"

"Yes, but they were never under the influence. They liked beer, and it seemed to have no effect upon them. Every night after a performance the troupe would gather in the hotel and have beer and lunch. Some of them liked other drinks, however, and had to have them. One old man and his wife wanted gin and another Jap tackled sherry. I had to get this for them, too. They would not have played if I didn't. When I first went with them they would not eat the hotel food and I had to arrange to have one of the women of the party go into the hotel kitchen and cook for the Japs. They used to eat eggs, rice and meat stews.

PARTICULARLY FOND OF PIE.

"After a time, though, they went through the regular bills of fare from soup to nuts. They were particularly stuck on that great American institution—pie. Then they always said their prayers morning and night, and just before they went on the stage to do their act they prayed to their God to help them. In praying they invariably turned their backs upon any one present, stood erect, rubbed their hands softly together, and muttered their petition in a sing-song tone. They were all interested in the habits and customs of the Americans, and when they saw any strange thing they studied it over until they learned it.

"My chums in the company were two boys, Kotzko and Yousanmatz. The latter was the boy who did the ladder act, and Kotzko used to be balanced on a long bamboo pole with Otoyon, a little girl. These two boys wouldn't live without me, so I always got a double-bedded room and bunked with them. At first they wouldn't sleep in an American bed, and always carried their mats for the floor, with pillows of wood, made bowl-shaped for the head and rounded so that they would move with the head. The members of the troupe all came from Yokohama and Nagasaki. They were not of the street-performing class in Japan, but of the middle class, like those in the 'village.' An old man, Yonousan, who was totally blind, used to do the iron jaw act by lifting tubs full of great stones with his teeth. He was, however, a street performer, but later performed in legitimate places of amusement like the others. He used to stand on the street corners in the Japanese towns, and after a man had collected a crowd by drumming a Japanese banjo he would do the egg trick, swallow a needle and thread and bring the needle out threaded, and other feats of magic, while the boy, Kotzko, would do tumbling. Then they would collect the cash, or money, the usual offering being a large, oval coin called a tempo. It had a square hole in the center, and the collector would string them on a wire. When the trio collected a certain amount they would lie idle and not go to work again until all the money was gone."—Chicago Herald Interview.

The Thieves of New York.

The thieves of New York city are pretty well informed as to the fields in which they wish to pasture. Every person in the city that possesses enough wealth to make it worth while for the consideration of the thief is known to the profession. It is said that the only way in which the Astors and Vanderbilts have succeeded in escaping robbery is by maintaining a private guard over the house.—Chicago Times.

Success of a Lady Correspondent.

Lady correspondents at Washington lived in clover during President Cleveland's matrimonial epoch. One of them took in the shekels in a surprising manner. She had ten papers to send her hymen literature to, and in one week made $1,000. She sails for England to enjoy the fruits of her labors.—Chicago Times.

A RAILROAD TIE OF PAPER.

Its Claims Set Forth by the Inventor—Durability and Elasticity.

"That is a railroad tie." It was of the regular size and polished as smoothly as a piece of Italian marble. The grain was so fine and the whole appearance so artistic that it might easily have been taken for a chip from a pillar of a Grecian temple instead of such a practical thing as a railroad tie. The speaker was a short, stout, red-faced man with a large head and overhanging brows, and was the inventor of this æsthetic sleeper, and in his little office there were many models of cars and railroad tracks scattered about. "This," said he, as he patted the railroad tie lovingly, "is the result of years of labor, and I believe now that it is perfect. It is made of paper, which I believe is to enter to a large extent in all building operations at no distant day. The great enemy to the use of paper is moisture, and in my invention, of course, a means had to be discovered to prevent dampness from having the slightest effect, as a railroad tie being in the ground is subjected constantly to it, and a rotten tie might cause the loss of many lives and much property.

"The process of manufacture is secret to a certain extent, but the tie is absolutely fire and water proof. There; I will throw a piece of the prepared paper into the fire. You see it will not burn. I have submerged it for weeks and months in hot and cold water and the moisture has never been found inside the surface. Consequently it can not rot. Though apparently as hard as iron, an ordinary spike can be driven into without difficulty, and when the spike is in position the material is of such a nature that it closes around the iron and binds it so firmly that it can never be shaken loose. There is also certain amount of spring in the tie, and then there is a load on it it operates as a sort of cushion and takes away a certain amount of jar from running cars. Under certain conditions, by slightly altering the combination of materials, the paper can be made so hard that it will turn the edge of the hardest tool without being more than scratched. The ordinary wooden tie will last about five years under the most favorable conditions, while the paper tie will last any kind of weather for at least thirty years.

"The paper used is generally made of straw, although almost any kind of fibre will do as well. Straw is preferred because it can be easily obtained and the supply is unlimited. There are mills in the west where the straw is made up into boards. It is a large industry and was first started to utilize the waste straw in the waste west for fuel, instead of wood. This is a paying business, and fortunes are being made out of what only a few years ago was thrown away or burned up as useless. These boards are put together in layers, and after being treated to a liberal dose of cement are put under a tremendous pressure in a hydraulic machine. This forces the atoms together in a solid mass. Under pressure a dozen boards will take the place of one. Heat is also an agent in the manufacture of paper ties, and they are thoroughly baked in a oven at a high temperature. Under the present imperfect conditions and appliances it takes considerable time to make a tie, but with everything built in accordance with my plans they can be turned out quicker than they can be cut from trees, and at a much less cost."—New York Tribune.

Servants of the English Aristocracy.

The children of the farmers are proud to be taken as servants of the hall; the gamekeepers and bailiffs and head gardeners are the grandees of the inferior world. All this class of dependents, by far the most comfortable of the laboring people in England, live only to serve their betters, to contribute to their comfort and grandeur. Their very numbers are a part of the pomp of the aristocracy. They come to look upon themselves as the appurtenances of rank, while the humbler sort, those who live in the gardens and stables and kennels of the lords, or the house servants who pass their existence cleaning their silver, preparing their viands, whitening their hunting breeches, and dressing their hair, have no conception of a state of things in which man is equal to man. They do their work, not as self-respecting people do in other countries—for hire, as a matter of business exchanging labor for pay—but for the honor of it; for love sometimes, and always because it is proper, because it is their duty and their place to wait on the lords.—Adam Badeau's Letter

A Great Difference in Copyists.

There is a great difference in copyists, both in style and swiftness. The average copyist can copy and compare about 6,000 ordinary words per diem, while an extra rapid one can write 10,000. The 10,000 man, however, is liable to break down if he tries to hold up to that number for any length of time. A twelve months' work, subdivided into months, of the fastest penman in this office, is as follows: April, 235,344; May, 242,165; June, 293,023; July, 255,825; August, 241,451; September, 288,222; October, 254,128; November, 242,387; December, 251,231; January, 173,531; February, 207,109, and March, 265,105. Total number for the year, 2,919,864.—Deputy Recorder in Globe-Democrat.

Drilled in the Art of Swimming.

Cavalry regiments in the Prussian army are being carefully drilled in the art of swimming their horses across rivers. At the word "Dismount!" the soldiers divest themselves of their clothing, which, with their weapons, etc., is placed upon a raft, which is swiftly ferried across the river, while the men take the horses by the head with one hand and swim with the other. The feat is said to be performed with the utmost precision and rapidity, whole regiments crossing and recrossing in an astonishingly short time.—Chicago Times.

How the Question Was Decided.

Little Johnny, age 5, was greatly taken with the circus-posters and begged his papa to take him to the circus. He could get no promise from him, however, until, making a last beseeching appeal on circus day, his father replied: "Well, Johnny, we will go down street and see the tents." Johnny walked along with his father, looking very dubious indeed at such a scanty privilege, until, glancing up, he remarked: "Papa, I'd much rather see the contents." That decided it; they went inside.—Babyhood.

Voice of the Horubills.

The voice of many species of these birds is said to be harsh and disagreeable. A traveler says when a bird is wounded or captured alive, the terrible noise it makes is perhaps not surpassed in the animal world. It is something between the bray of an ass and the shriek of a locomotive, and is kept up continuously, so as to be absolutely unbearable. When a female bird was captured on the nest, its shrieking was heard nearly a mile off—a boon to the nose even at that distance.—Sci. American.

A COOL SHADY ARBOR FOR THE CELEBRATION.

THE rumor that prevails in some sections of the country that the celebration of the Fourth will be held in the Plaza without shade or protection from the sun's rays is wholly untrue. Our people have constructed a fir arbor around the Pavilion capable of seating at least 2000 people in the shade. So come along one and all. We guarantee good seats beneath the shade of fir boughs as cool as can be found in the county.

NEXT MONDAY.

THERE will be a vast number of strangers in Sonoma next Monday to join with Sonoma Valley people in celebrating the Fourth. In order that strangers may be favorably impressed with us let each and every citizen take it upon himself to see that they receive kind and hospitable treatment. If we wish to create a favorable impression abroad let us do all we can to please and entertain our guests.

THE GOOD WORK GOES BRAVELY ON.

COL. DONAHUE is rapiding pushing forward his connection with the main line via. Tiburon and will shortly undertake the connection with Napa Junction. With these improved railroad facilities we may look for the long-hoped-for era of prosperity in this part of the county, and the Sonoma Valley boom, which has commenced, will be an assured certainty. Mr. Donahue is said to be largely interested in the recently purchased Decker & Jewett property, on which a town with a large hotel and summer resorts are to be built, and it is evident that Mr. Donahue will use every effort to improve the value of property in our valley.

THERE is no better way of advertising your community than by sending your local papers abroad. Each week there is more or less matter in them which will serve to attract attention and to give just the information desired by the people abroad. On this same subject the Chico "Enterprise" says: Let some of our energetic citizens take hold, and in the meantime let everybody take hold and send the local papers abroad. Los Angeles people know that every cent spent in support of their local press did more than a dollar in any sort of special publication, and they have grown wealthy and prosperous by judiciously appreciating the influence of the local press.

PETE MARTIN, alias "Nigger Pete," a drunken vagabond of Santa Rosa, insulted two ladies in front of the Occidental Hotel last Monday. C. V. Tupper who was present, resented the insult by knocking Pete down with a blow of his fist. He fell heavily to the sidewalk and was rendered unconscious and when picked up his left side was found to be paralyzed and he was conveyed to the County Hospital. Mr Tupper was arrested and immediately released on $2000 bonds. It is thought the injured man will die.

WE hear that Mrs. Warfield and H. E. Boyes have sold their red wines of '86 for over 25 cents per gallon, a large advance on the price that has hitherto been given for '86 reds. We are not aware who the parties are who bought the wine, but understand that they are a new firm who thoroughly believe in quality only. We are glad to see that Mr Boyes has been appointed one of the General Executive Committee of the Mechanics' Fair.

WE acknowledge the receipt, with thanks, of an invitation to attend the commencement exercises of the University of California, Oakland, which took place last Wednesday.

THE Viticultural Commissioners say that the outside figures of the wine product of the State for 1887 will be 15,000,000 gallons.

A PARBOILED IDIOT.

Lo, what fools men be! A parboiled idiot recently writing to the San Francisco "Bulletin," stated that the Zinfandel grown on the hills of Santa Cruz is equal to the Cabernet Sauvignon of Napa and Sonoma counties We well know that Santa Cruz yields excellent wines. We know the interest taken in the county by such men as Dr. Stewart and Judge Logan, and we well know that this writer in the "Bulletin"—this drinker of Zinfandel, this profound taster of wines, this great authority on clarets—has never tasted a claret in his life and has never seen a Cabernet of Sonoma county. The Zinfandels of Santa Cruz are good, well colored, clean tasting and full flavored, but they no more resemble Sonoma county Cabernet Sauvignon than does the good, old Stilton cheese resemble the fragrant Limburger.

Zinfandel comes from a vine grown in upper Austria and Hungary and is hardly recognized as a wine grape, but somewhat approaches to the production of the Kadarka, the vine from which is made Max Gregor's Carlowitz, but the Zinfandel is like the Carlowitz, neither "fish, flesh, fowl or good red herring," as the old lady said of the salt halibut, but is simply ordinary Hungarian wine of a low-class type and has no equality whatever with a Claret. We fear that our friend of Santa Cruz has had his taste vitiated by prolonged doses of sour-krout and Bologna sausage. Zinfandel in no way resembles Cabernet in either color, taste or bouquet and any one comparing them as equal could not tell a strawberry from an onion. Some of the best wines we have ever seen in the State come from the Santa Cruz mountains Some of the most progressive men in viticultural circles are, fortunately for Santa Cruz county, located within her limits, but Zinfandel, even grown in Sheol, equal to Napa or Sonoma Cabernet Sauvignon, NEVER!

A Horrible Charge.

The town of Cloverdale was convulsed with excitement and indignation Saturday morning by a report being circulated that John Bryant, a youth eighteen years of age, had been arrested for attempting to violate the person of a ten-year-old girl, named Lena Elden, daughter of his employer, John Elden. The rumor was soon confirmed by the agitated crowd collecting around Justice Spurr's court-room, where Bryant had been taken by Constable Criegler. The circumstances upon which the vile charge was based, shown by the evidence, as stated by the arresting officer, are as follows: The little girl was playing about the backyard during the afternoon, near where Bryant was working, and was enticed by him into a barn where he sought to execute his horrible designs. Through his fear of what he had done or by her own efforts she made her escape and ran into the house, informing her mother of what Bryant had attempted to do. The child's frightened appearance and general condition was proof sufficient to the horrified mother of the truth of her child's words. The subsequent examination by a physician confirmed beyond all doubt the belief that the child had been cruelly dealt with. The examination before Justice Spurr resulted in Bryant's being held to appear before the Superior Court on a charge of attempted rape, with bail fixed in the sum of $1,000, in default of which he was brought to the County Jail by Constable Creigler, Saturday afternoon, where he will await trial before a higher tribunal. The parents of the child are highly respected in the community in which they reside and they are accorded the kindest sympathy by all who know them. Mr. Elden has conducted a milk ranch south-east of the town for a number of years and gave Bryant employment. Bryant's parents are poor and have hard work in keeping abreast of the tide of life owing to the father being a consumptive. The support of the family is contributed to by lodges of which Mr. Bryant is a member.—*Santa Rosa Democrat.*

A reporter of the Santa Rosa "Republican" interviewed young Bryant at the County Jail last Monday. He stoutly maintained his innocence of the charge and made the following statement: "I told the girl if she would go to the barn I would get some eggs for her to take to the house. When she came to the barn I told her I would have to feed the cows, and after that I would come up and get them, and for her to go up on the hay and I would be up in five minutes. When I came up she was there and after she got the eggs I told her to go down and she began to talk back to me and sauce me. Finally I pushed her down off the hay, a distance of about four feet. She and I haven't been on good terms. She had taken things from my room and whenever I said anything to her about it she would get angry and talk back to me. I never intended to hurt her, but wanted to make her go down off the hay."

INDEPENDENCE DAY.

HOW IT WILL BE OBSERVED IN SONOMA.

The Mexican War Veterans Will be Here in Force.

Survivors of the Bear Flag Party to Meet Once More on Their Old Stamping Ground.

Great preparations are being made by the people of town and valley to receive the Mexican War Veterans, the survivors of the Bear Flag Party and the vast throng of people who will follow in their wake and meet on the old and historic stamping ground of the survivors of the Bear Flag party to celebrate the 111th anniversary of American Independance.

THE OLD STAMPING GROUND.

No more fitting place could have been selected by the old veterans to commemorate the event, as the conquest of California and the addition of one more State to the galaxy of the Union was no doubt brought about by the stirring scenes which took place on our Plaza in 1846, where now stands the old flagstaff upon which the Bear Flag floated in the breeze, but which subsequently gave way to the stars and stripes. What tales might the silent adobe walls of some of the ancient tumble-down structures of the old town tell of events long since passed and forgotten, had they but the power of speech. Here was quartered at one time in the adobe barracks, where now is located Schocken's store, army officers who afterward became renowned as Generals in the late Cival War. Among them where Fighting Jo Hooker, Geo. S. Stoneman and others quite as famous. Sonoma in those days was the principal city of California, San Francisco at that time beeing but a hamlet. But times have wrought many changes since those days and towns and cities have sprung up like mushrooms on all sides of old Sonoma while the old town has been unable to keep pace with her more progressive sisters. But a new era is beginning to dawn upon Sonoma and the celebration next Monday is but another indication of the tide of prosperity that has set in in her direction.

HOW THE DAY WILL BE OBSERVED.

At 5 A. M. the day will be heralded in by the firing of a salute and the ringing of bells. This of course will arouse the entire populace and set the abbreviated young American wild with delight, while it will remind all patriotic Americans that we have entered upon another birthday of National rejoicing. Renewed preparations will then be begun for entertaining our visitors. Upon the arrival of the train bearing the Veterans they will be escorted by the citizens, headed by the Sonoma Brass Band of twenty pieces, around the Plaza and thence to the flagstaff where the Bear Flag exercises will be held. This concluded, the Veterans will then be escorted by a Committee to their headquarters at Wely's Hall which has been set apart for their especial use. Here will be awaiting them a sumptous repast contributed by our valley people from the shore of San Pablo Bay to Glen Ellen. This will be served by a committee of ladies, who have been appointed especially for that purpose. At 1:30 P. M. the literary exercises at the City Pavilion will commence. Hon Robert Howe will make the introductory remarks, after which the following programme will be carried out: Prayer by the Chaplain, Rev. E. H. King; Recitation, Miss Emma Hope; Music, Sonoma Brass Band; Reading Declaration of Independence, Dr. H. H. Davis; Poem, Geo. H. Badger; Music, Sonoma Brass Band; Oration, Hon. Chancellor Hartson.

DECORATIONS AND ACCOMMODATIONS.

The Pavilion has been tastefully decorated with shields, banners, flags, Chinese lanterns and evergreens, both inside and outside. Surrounding the Pavilion on the outside has been erected an awning twelve feet in width which will be covered with evergreens underneath this awning will be placed benches, with a seating capacity of 2,000 while the interior will comfortably seat 600 or 700 hundred people. On the east side of the Pavilion will be an immense tank of ice water while smaller tanks will be set up in different parts of town for the thirsty.

Our hotel men have been active and have made ample preparations to accommodate the large number of people who will be here to participate with us in observing the day. As we have some half dozen hotels no doubt there will be accommodations for all who may come.

Fourth of July Notes.

All citizens who have not already done so are requested to decorate their places of business in honor of the 4th of July.

The citizens of Sonoma are requested to send in flowers and floral decorations to the City Pavilion not later than 9 o'clock on Monday.

Immediately upon the arrival of the train, all citizens are requested to fall in line and escort the Mexican Veterans to the Bear Flag pole.

The headquarters for the Mexican Veterans, other than those from San Francisco, will be at the Trustees room in the City Pavilion. All Mexican Veterans are requested to report there promptly on arrival.

It is desired that every convenience and comfort be offered our visitors on the 4th of July All persons having shady groves and gardens are therefore earnestly requested to invite our visitors to rest and refresh themselves there.

Impurities of the blood often cause great annoyance at this season. Hood's Sarsaparilla purifies the blood, and cures all such affections.

NOTICE.

To Contributors of Refreshments

Those ladies and gentlemen who have so kindly donated refreshments for the Association of Mexican War Veterans will please send or bring them to Weyl's Hall.

The Committee will be at the hall to receive them to-day (Saturday) between the hours of 2 and 6 P. M., and all day to-morrow (Sunday). Ladies who have not been waited upon by the Committee who have found it impossible to call upon every one who desire to contribute something are informed that all contributions of refeshments will be thankfully received at the hall.

MRS. H. H. GRANICE,
Chairman Refreshment Committee.

All persons having claims against the estate of the late Victorine G. Robin are notified in another column to present them to Mrs. Timothea Robin, the administratrix, at her residence in this place.

Trouble Ahead.

When the appetite fails, and sleep grows restless and unrefreshing, there is trouble ahead. The digestive organs, when healthy, crave food, the nervous system, when vigorous and tranquil, gives its possessor no uneasiness at night. A tonic, to be effective, should not be a mere appetiser, nor are the nerves to be soothed by the unaided action of a sedative or a narcotic. What is required is a medicine which invigorates the stomach, and promotes assimilation of food by the system, by which means the nervous system, as well as other parts of the physical organism, are strengthened. These are the effects of Hostetter's Stomach Bitters, a medicine whose reputation is founded firmly in public confidence, and which physicians commend for its tonic, anti-bilious and other properties. It is used with the best results in fever and ague, rheumatism, kidney and uterine weakness and other maladies.

MISCELLANEOUS.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and Hood's Sarsaparilla is worthy your confidence. It is peculiar in that it strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. Give it a trial.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

Mrs. Gustav Wehr, living on Broadway, while turning the corner in front of the Union Bakery was thrown from her buggy last Tuesday afternoon and quite severely bruised. The lady was somewhat dazed by her fall, but quickly recovered and pluckily entered her buggy and drove home, notwithstanding her injures.

The wine and brandy producers of Sonoma Valley, particularly those having stock in celler, every one of whom is a subscriber of the INDEX-TRIBUNE, will find it to their advantage to correspond with Mr. C. F. Chadbourne, wine broker, No. 200 California street, San Francisco. See his advertisement in another column.

The attention of our fruit men is respectfully called to the advertisement of Mr. Thos. S. Cooper, which appears in another column. Mr. Cooper advertises to furnish fruit boxes of every description at less than they can be purchased for in San Francisco. Read his advertisement, send him your orders and save money.

The Sonoma public school-house has been given a new coat of paint the past week by Mr. W. P. Wilson, and now presents quite a fresh and neat appearance. The building was originally painted by Mr. Wilson 17 years ago and so thoroughly was the work done that it was not thought necessary by the Trustees to have it repainted until this week.

The Forthcoming Exhibit.

J. H. Drummond, Chairman of the Sonoma Valley Exhibit Committee, has secured 600 square feet to make a display of the products of Sonoma, Glen Ellen and Los Guilucos at the Mechanics' Fair, which sections will exhibit jointly and independent of the county. Large quantities of perishable fruit for the exhibit has already been preserved in glass jars in a preparation suggested by Prof. Hilgard of the State University, composed of glycerine and salicylis acid. By this process the fruit, consisting of cherries, blackberries, gooseberries, etc., will present a natural appearance. This fruit is being put up under the supervision of Robert Poppe, Secretary of the Committee, who is taking commendable interest in the matter. In addition to the fruit exhibit there will be every known product of Sonoma Valley. The display, if each of the Committeemen will but do his share of the duty devolving upon him, will prove Sonoma Valley to be one of the most productive sections in the State.

The New Town.

The contract for the construction of a bridge across Calabaces Creek, at the entrance of the new town which has been laid off on the Decker & Jewett place in Los Guilucos Valley has been let to T. J. Ludwig of Santa Rosa. The same gentleman has also contracted to construct a number of cottages for the improvement company. The contract for constructing the new hotel will be let as soon as the plans are prefected. There is much speculation in this section as to what figure the new town will cut as regards other Sonoma Valley towns. The general opinion is that it will draw largely from the trade of Santa Rosa and Glen Ellen, while it will not in the least affect the business of Sonoma, from which it is too far removed to inflict any injury in a business point of view.

Sudden Death.

A man named Antone Sciligo was found dead in bed at his home at Embarcadero at 6 o'clock Monday morning. Deceased had been complaining for some time, but had been up and around. On the morning of his death he remained in bed while his wife, who was an early riser, repaired to a neighbor's to get some one to stay with her husband, while engaged in her duties of working out by the day. Returning soon afterward she found that he had expired during her absence. He was troubled with heart disease and that is the cause assigned for his sudden death. Deceased was a native of Switzerland and aged about 67 years.

Incorporated.

The Marin & Napa Railroad Co. (the Donahue extension) have filed with County Clerk Mulgrew articles of incorporation. The capital stock is $500,000, composed of 100 shares of the value of $5,000 each. The incorporators are Col. Jas. M. Donahue, Mary E. Von Schrœder, H. C. Whiting, Peter J. McGlynn and Reuben H. Lloyd.

At It Again.

[Santa Rosa Republican.]

L. G. Treibig, well-known in this community as a man fond of exercising his authority over his wife and who has several times been arrested for beating her, has again demonstrated his nature by another attack. Mrs. Treibig states that her husband seized her by the throat while in bed Wednesday morning, and began spitting in her face and continued until her face was entirely covered with the filthy mucous from his throat. She struggled with him in trying to escape, and finally lodged a blow upon his face which resulted in a black eye. He endeavored to have her arrested on a charge of battery but the officer refused to issue a warrant. Mrs. Treibig went to Judge Brown's office to secure a warrant for her husband's arrest but that official also refused a warrant, as it is but the oft-repeated scene which cannot be stopped by the penalty of the law. The parties have both resolved to be divorced and another case of that nature will be brought before the courts.

Special Meeting of City Trustees.

The Board of City Trustees met in special session at the Pavilion at 10 A. M. last Tuesday. Present: A. F. Haraszthy, Chairman; Trustees McHarvey, Wegner, Lawrence and Manuel.

The meeting was called for the express purpose of taking action on matters pertaining to the celebration of the Fourth of July.

Messrs. Tivnen, Poppe and Granice of the Fourth of July Executive Committee were present and urged the neces ity of the Board allowing the committee the privilege of erecting an awning around the City Pavilion for the accomomodation of the public. After the matter had been thoroughly discussed by the Trustees and the representatives of the Fourth of July Committee, the following motion was made by Trustee Lawrence and seconded by Trustee McHarvey: *Resolved*, That the Executive Committee of the General Fourth of July Committee of Twenty-five be allowed the privilege of erecting an awning around the City Pavilion, said Committee to use all precautions against said building being injured and to be liable for any injury thereto, and said Committee to remove said awning within five days after the Fourth of July. Upon being put to a vote the motion was carried.

It was further moved and seconded that the Fourth of July Executive Committee be allowed the privilege of erecting a speakers' platform near the Bear Flag pole.

The City Marshal was instructed to notify the owners of the basalt blocks surrounding the flagstaff to have the same removed within a distance of fifty feet surrounding the pole. He was also instructed to have badges printed on silk for the use of the Deputy Marshals' appointed to preserve order on the occasion of the celebration.

The meeting then adjourned.

BAKING POWDERS.

Interesting Tests Made by the Government Chemists.

Dr. Edward G. Love, the Analytical Chemist for the Government, has made some interesting experiments as to the comparative value of baking powders. Dr. Love's tests were made to determine what brands were the most economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr. Love's report gives the following:

Name of the Baking Powders.	Strength Cubic inches Gas Per each ounce of Powder.
"Royal" absolutely pure	137.4
"Patapsco" alum powder	135.2*
"Rumford" phosphate fresh	132.5*
"Rumford" phosphate old	32.7*
"Hanford's None such," fresh	121.6
"Hanford's None such," old	81.25
"Redmond's"	117.0
"Charm" alum powder	116.9
"Amazon" alum powder	111.5*
"Cleveland's contains lime	110.8
"Set Form"	107.9
"Ozo"	106.8
"Dr. Price's" contains lime	102.6
"Snow flake" Groff's, St. Paul	101.88
"Lewis's" Condensed	98.2
"Congress" yeast	97.5
"C. E. Andrews & Co's" contains alum	78.17*
"Hecker's	92.5
"Gillets"	81.2
"Bulk"	80.5

*In his report the Government Chemist says:

"I regard all alum powders as very unwholesome Phosphate and Tartaric Acid powders liberate their gas too freely in process of baking, or under varying climatic changes suffer deterioration."

Dr. H. A. Mott, the former Government Chemist, after a careful and elaborate examination of the various Baking Powers of commerce, reported to the Government in favor of the Royal brand.

Prof. McMurtrie, late chief chemist for the U. S. Government at Washington, says: "The chemical tests to which I have submitted the Royal Baking Power, prove it perfectly healthful, and free from every deleterious substance."

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.—W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

Dyspepsia Cured.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Springfield, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic avenue, Brooklyn, N. Y. ††

Killed by an Orange Seed.

[N. Y Sun.]

Henry Chatfield, of 115 Henry street, Brooklyn, the head of the hosiery department of a Fulton street notion store, died May 29 of the effects of the lodgment of an orange seed in his intestines, followed by ulceration. Dr. Emerson, his physician, called in Dr. William Gilfillan for consultation, and they, having decided that an operation was necessary, procured the assistance of Dr. F. H. Colton. On the morning of May 29 the three doctors made an incision, and after removing a quantity of pus found the source of the trouble and removed it. The patient, however, was unable to rally from the shock, and died about 4 o'clock. Dr. Gilfillan said:

"The operation was a desperate one, and was undertaken only as a last resort. There was no possibility of saving the patient otherwise. The orange seed was found lodged in the appendix vermiformis. This is a small sac that is attached to one part of the intestines. What purpose it serves is not exactly known. It is, however, a sort of trap, always ready to catch and hold hard substances passing through the intestines. The lodgment of such substances in it is not invariably fatal, bnt the exceptions are rare. Seeds of oranges, raisins and simliar fruits are peculiarly liable to be caught in this way. Is it dangerous to eat oranges? Well, I suppose in a city of this size there is one case a year of death from such a cause. Very frequently it is an orange seed, but not always. There are about 600,000 people in Brooklyn, all eating oranges right along, and with one death a year from this cause it would seem to be about as dangerous to eat an orange as to sit in the house and wait for a stray pistol ball to kill you. Still, it is just as safe and a good deal nicer not to swallow seeds when you eat oranges."

The Wisdom of Folly.

An End to Bone Scraping.

Edward Sheperd, of Harrisburg, Ill., says: "Having received much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctor told me I would have to have the bone scraped or leg amputated. I used instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c. per. box by Ed. Wegner.

Good Results in Every Case.

D. A Bradford, wholesale paper dealer Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by the use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. POISON IN THE ASHES

What the Mt. Lebanon Shakers Found—Incident in the History of a Quiet Community.

The Mount Lebanon (New York) Shakers are a quiet community, secluded from the fret and worry of the outside world. They are widely known, however, for their strict honor and probity in business.

The Shakers believe that nature has a remedy for every disease. A few have been found—the rest are as yet unknown. Many were discovered by accident. Others came to light as the result of patient experiment and research.

Nervous Dyspepsia is a comparatively *new* disease, growing out of the conditions of modern life. It is a joint affection of the digestive organs and of the nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted Shakers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus:—"If we can induce the stomach to do its work, and stimulate the excretive organs to drive out of the body the poisonous waste matters which remain after the life-giving elements of the food have been absorbed, we shall have conquered Nervous Dyspepsia and Nervous Exhaustion. And they were right. Knowing the infallible power of Shaker Extract (Seigel's Syrup) in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt they prescribed the remedy in hundreds of cases which had been pronounced incurable—with perfect success in every instance where their directions as to living and diet were scrupulously followed. Nervous Dyspepsia and Exhaustion is a peculiarly American disease. To a greater or less extent half the people of this country suffer from it—both sexes and all ages. In no country in the world are there so many insane asylums filled to overflowing, all resulting from this alarming disease. Its leading symptoms are these: Frequent or continual headache; a dull pain at the base of the brain; bad breath; nauseous eructations; the rising of sour and pungent fluids to the throat; a sense of oppression and faintness at the pit of the stomach; flatulence; wakefulness and loss of sleep; disgust with food even when weak from the need of it; sticky or slimy matter on the teeth or in the mouth, especially on rising in the morning; furred and coated tongue; dull eyes; cold hands and feet; constipation; dry or rough skin; inability to fix the mind on any labor calling for continuous attention; and oppressive and sad forebodings and fears.

All this terrible group Shaker Extract (Seigel's Syrup) removes by its positive, powerful, direct yet painless and gentle action upon the functions of digestion and assimilation. Those elements of the food that build up and strengthen the system are sent upon their mission, while all waste matters (the ashes of life's fire) which unremoved, poison and kill, are expelled from the body through the bowels, kidneys and skin. The weak and prostrated nerves are quieted, toned and fed by the purified blood. As the result, health, with its enjoyments, blessings and power, returns to the sufferer who had, perhaps, abandoned all hope of ever seeing another well day.

TRIED IN THE CRUCIBLE.

S.S.S.

About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.

GOLDEN MEDICAL DISCOVERY

CURES ALL HUMORS,

from a common **Blotch**, or **Eruption**, to the worst **Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin**, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. **Great Eating Ulcers** rapidly heal under its benign influence. Especially has it manifested its potency in curing **Tetter, Rose Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, White Swellings, Goitre, or Thick Neck, and Enlarged Glands.** Send ten cents in stamps for a large treatise, with colored plates, on Skin Diseases, or the same amount for a treatise on Scrofulous Affections. **"THE BLOOD IS THE LIFE."** Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength, and soundness of constitution,** will be established.

CONSUMPTION,

which is **Scrofulous Disease of the Lungs**, is promptly and certainly arrested and cured by this God-given remedy, if taken before the last stages of the disease are reached. From its wonderful power over this terrible fatal disease, when first offering this now celebrated remedy to the public, DR. PIERCE thought seriously of calling it his **"Consumption Cure,"** but abandoned that name as too limited for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for consumption of the lungs, but for all

CHRONIC DISEASES OF THE

Liver, Blood, and Lungs.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills, alternating with hot flashes, low spirits and gloomy borebodings, irregular appetite, and coated tongue, you are suffering from **Indigestion, Dyspepsia, and Torpid Liver, or "Biliousness."** In many cases only part of these symptoms are experienced. As a remedy for all such cases, **Dr. Pierce's Golden Medical Discovery** has no equal.

For **Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Consumption,** and kindred affections, it is a sovereign remedy. Send ten cents in stamps for Dr. Pierce's book on Consumption. **Sold by Druggists.**

PRICE $1.00, OR 6 BOTTLES FOR $5.00.

World's Dispensary Medical Association,

Pierce's LITTLE Pleasant LIVER Purgative Effects PILLS.

ANTI-BILIOUS and CATHARTIC. Sold by Druggists. 25 cents a vial.

$500 REWARD

is offered by the proprietors of Dr. Sage's Catarrh Remedy for a case of catarrh which they cannot cure.

If you have a discharge from the nose, offensive or otherwise, partial loss of smell, taste, or hearing, weak eyes, dull pain or pressure in head, you have Catarrh. Thousands of cases terminate in consumption.

Dr. Sage's CATARRH REMEDY cures the worst cases of Catarrh, "Cold in the Head," Hay Fever and Chronic Headache.
